

UNITRUNK

Total Cable Management Solutions

ACCESSORIES & SUPPORTS

Cable Management installations often require a wide range of ancillary items such as fixings and accessories. Unitrunk branches carry, in stock, a vast range of these items to ensure that installers have a reliable 'single source' supply of components to meet their site requirements.

Although fixings and accessories are often small value parts, they can be important components in the overall installation therefore, breadth of range and product quality are important factors when choosing a supplier.

It's impossible to feature every product from this wide ranging product area in one catalogue so whilst you'll find many industry standard items in the following pages, if you have specific requirements that aren't shown then please call your local branch for expert support and assistance.

Finishes are available in zinc plated (EZ), hot dip galvanised (GA) and stainless steel finishes (SS) and when ordering please specify the finish required.

Cantilever Arm

Ref.	Product	Arm Length
340AH10	2 Hole	150mm
340AH11	2 Hole	300mm
340AH12	2 Hole	450mm
340AH13	2 Hole	600mm
340AH14	2 Hole	750mm
340AH15	2 Hole	900mm
